What are the different statemetns allowed inside a LB?

We can place any stement that is allowed inside a method, because the LB is part of the method.

logic statements

It meas we can place

1) a varible declaration
2) a variable initialization
3) a variable assignment
4) a variable accessing
5) a method call
6) if condition, else, switch
7) loops
8) break, continue, return
9) try, catch, finally, throwing an exception
10) even we can place an object creation statement.
