```
class A{
    p s v main(String[] args){
            int p = 10;

            {
                int q = 10;
            }

            q = 20;
            int q = 20;

            int p = 30;
            p = 30;
    }
}
```
